Aliud est bonum delectabile, et est quod communiter delectat [illegible] [illegible] inquantum ad acquirendum et non quod habendo delectat. Sic abusus est bonum delectabile. Sic ergo potentia sensibilis non est idem quod essentia anime, sed potentia intellectualis non est essentia anime, et hoc volunt quidam doctores. ¶ Contra sequitur anima et potentia differunt sicut [illegible] et sic quod sufficit, si unum [illegible] quod dicunt [illegible] contra decima questionem et potentia. ¶ Contra abstractum [illegible] quod [illegible] in predicto [illegible] non [illegible] pro subiecto, sicut albedo et nigredo, et tale abstractum non [illegible] differunt [illegible] quod [illegible] aliud abstractum quod non [illegible] de suo subiecto. Sic ergo in proposito potentia non dicit [illegible] pro subiecto et [illegible] anima quod potentia. ¶ Contra potentia sensibilis non [illegible] quod anima [illegible] operationes suas, sed potentia intellectualis, ergo quod anima [illegible] operationes per potentias intellectuales et potentie intellectuales. ¶ Contra alio [illegible] potentie intellectuales non autem sensibiles. ¶ Contra qualitas accidentalis [illegible] anima vel [illegible] qualitas accidentalis [illegible] anima sic [illegible]. opa° intellectus separatur ab aliis potentiis .i. ab operationibus corporis et potentiis sicut intellectus a sensu quia intellectus per separationem [illegible] operationem sed de potentia s. essentia [illegible] non concernit suas operationes ¶ Secundo potentia intellectiua non separatur ab aliis potentiis sicut intellectus a sensu ¶ Arguitur intellectus non separatur ab aliis potentiis arguitur [illegible] quia intellectus est plures res [illegible] quia separatio importat pluralitatem rerum ¶ Item potentia essentia non [illegible] corporis et intellectus non separatur a essentia sicut intellectus a sensu arguitur potentia intellectiua non [illegible] corporis [illegible] essentia [illegible] quia intellectiua et essentia sunt una anima [illegible] [illegible] ¶ Item potentia essentia non [illegible] non [illegible] corporis arguitur quia [illegible] alio [illegible] [illegible] potentia essentia non [illegible] [illegible] [illegible] anima essentia [illegible] [illegible] non [illegible] [illegible] quia [illegible] non est [illegible] anima [illegible] ¶ Item intellectus non [illegible] intellectus non est [illegible] [illegible] per [illegible] [illegible] [illegible] ¶ Item intellectus per [illegible] corporis [illegible] arguitur intellectus per [illegible] corporis [illegible] [illegible] [illegible] 3° [illegible] ¶ [illegible] separatio [illegible] [illegible] actiua [illegible] quo [illegible] separatio importat pluralitatem rerum [illegible] intellectus separatur ad operationes et [illegible] non importat pluralitatem rerum [illegible] quia anima intellectiua concernit suas operationes ab alia potentia quo ad operationes quia anima [illegible] non quia non sentit vel [illegible] per separationem [illegible] potentia aut essentia non quia non [illegible] ¶ [illegible] intellectus per plures res [illegible] non aut [illegible] actiua [illegible] operationem [illegible] [illegible] [illegible] et [illegible] [illegible] eadem anima [illegible] potentia essentia non [illegible] operationem [illegible] quia anima essentia non concernit operationes [illegible] [illegible] operationes sicut [illegible] ¶ [illegible] aliquid [illegible] [illegible] vel ad [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] ¶ [illegible] [illegible] intellectus [illegible] intellectus non [illegible] intellectus [illegible] intellectus [illegible] [illegible] [illegible] intellectus [illegible] [illegible] intellectus [illegible] [illegible] separationem [illegible] vel [illegible] intellectus [illegible] [illegible] [illegible] [illegible] [illegible] possibilis [illegible] intelligi potentia ad [illegible] [illegible] vel [illegible] intellectus [illegible] essentia [illegible]

potentia et est ultima [illegible] Nota quod dicit augustinus [illegible] due sunt potentie anime
vegetative et duo dispositiones immediate scilicet generativa et alimentativa vel que alimento
utitur includit ipse duas potentias scilicet nutritivam et augmentativam sed secundum
dispositiones immediatas hic sunt tres potentie anime vegetative. Nota quod licet
[illegible] utitur alimento et generativa non tamen eodem modo quia nutritiva utitur
alimento propter se et generativa propter alio etc. Nota [illegible] tertio potentia [illegible] calor

Deinde potentia corrupciua non est potentia anime vegetatiue. Sed potentia generatiua. Singulare quia corrupcio est in naturalibus generacio alterius naturalis. Sed dicuntur potencie anime vegetatiue inquantum anima. Non enim anima non est alia anima vel

i. n.

Utrum naturalissimum operum in viuentibus sit generare sibi simile. Respondeo. Secundum hoc naturalissimum capitur quinque modis. Primo ut tunc valet sicut magis naturale. Istomodo nutritio est opus naturalissimum quia est magis naturale. Secundo naturalissimum capitur ut tunc valet sicut magis generale et dicitur naturalissimum quod est commune omnibus viuentibus. Tercio capitur ut tunc valet sicut magis est cognitum quam aliud quod patet. Quarto capitur sicut magis generaliter. Et dicitur naturalissimum quod est communius. Et isto modo nutritio est opus naturalissimum. Quinto modo non capitur ut tunc valet sicut perfectissimum et nobilissimum. Et isto quinto modo generacio est naturalissimum. Differencia inter opus operis et opus operantis opus est quod est intrinsecum operi, opus operantis quod est opus operatoris. Non dicitur sicut et opus et operantis non de opere operante. Differencia in viuentibus quod non viuencia sit duplicia. Quedam sunt perfecta et sunt alia habencia defectus vel complexionem requisitam ad generandum sibi simile et dispositiones requisitas ad generacionem. Sicut hoc. Alia sunt imperfecta seu orbata et ista sunt duplicia. Quedam sunt orbata simpliciter et sunt illa que carent testiculis sicut sunt castrati vel eunuchi. Alia sunt orbata non simpliciter sicut sunt illa que carent dispositionibus requisitis ad generandum et hoc explicatur generaliter sicut in iuuentutibus sicut iuuenes. Unde

Dicitur naturalissimum quia operum viuentis est inclinacionum naturalem ad opus generacionis. Et dicitur opus naturalissimum. Unde quanto opus est nobilius et perfectius tanto inclinacio est intensior ad ipsum. Et quanto inclinacio est intensior ad aliquod opus tanto est nobilius et perfectius. Unde cum omnia viuencia habeant inclinacionem ad hoc quod participent de diuino et immortale quod non possunt per se nisi per mediante actu generacionis. Ideo opus generacionis est naturalissimum operum in viuentibus perfectis non orbatis nec impotentibus.

Iste species iterum multiplicat alias et iste alias usque ad organum auditus et sic est generatio de sono sed de percussione lapidis in aqua sicut patet quando proicitur lapis parvus in aquam tunc ibi causatur circulus et iste causat alium circulum et alium quousque desistat virtus impellentis. Utrum autem quando dicitur utrum odor multiplicetur in medio realiter vel spiritualiter. Notandum quod sicut est de odore sicut est de sono, quia sonus est qualitas que per se obicitur ab auditu per se. Sic etiam odor est qualitas que per se obiectum ab olfactu per se. [illegible] sonus [illegible] duplex reale et spirituale. Sic etiam odor [illegible] reale et spirituale. Esse reale odoris [illegible] odor [illegible] in medio [illegible] quadam evaporatione. Sed esse spirituale [illegible] multiplicatur ab odore reali [illegible] reale odoris [illegible] spirituale, quia reale non est ubique ubi odor percipitur [illegible] per longam distantiam [illegible] ubi non [illegible] reale odoris [illegible] [illegible] ad [illegible] non fuit reale [illegible] resoluta [illegible] potuisset sufficere ad [illegible] multiplices [illegible] distantiam. Dubitatur utrum gustus sit quidam tactus videtur quod sic quia si gustus non sit quidam tactus non essent tunc solum quinque sensus exteriores quod est contra dictum. Item gustabile differt a tangibili et gustus differt a tactu. Consequentia tenet quia diversitas obiectorum facit diversitatem sensuum. Antecedens patet quia tangibile est qualitas prima gustabile vero qualitas secunda [illegible] qualitas prima et secunda differunt [illegible] gustabile consistit in humido [illegible] tangibile autem non. contra unum sensum particularem [illegible] secundo quia [illegible] debetur potentiori et non inferiori. Tertia conclusio sensus communis est sensus generalis ut dicetur in 3a questione. Sed ad [illegible] et ad sensum generalem non sufficit cognoscere omnia obiecta sensuum particularium, sed requiritur quod iudicat ita quod sensus communis est potentia iudicativa et cognoscitiva [illegible] fantasia autem [illegible] solum est retentiva, ergo [illegible] differentiam [illegible] est potentia iudicativa. Quarta conclusio potentia visiva est duplex, quaedam potentia visiva potentior, quaedam est inferior [illegible] intelligendum potentia visiva [illegible] et [illegible] potentia visiva potentior non autem inferior. Quinta conclusio licet sensus communis cognoscat obiecta omnia sensuum particularium, tamen non omnia quae sensus potentiores ponunt [illegible] quia [illegible] non ponuntur sensibus potentioribus, tunc sensus communis non potest iudicare de [illegible] sensuum [illegible] eo quod sensus communis non iudicat nisi per intentiones [illegible] a sensibus, sed [illegible] sensibus potentioribus non sunt [illegible] sensus inferior de illo possit iudicare etc.

Utrum organum sensus communis sit ponendum in cerebro aut in capite. [illegible] organum sensus communis est in [illegible] illud organum [illegible] quod [illegible] sensibus [illegible] a sensibus [illegible] sensibus particularibus [illegible] organum [illegible] in corde [illegible] illud [illegible] intentiones a sensibus [illegible] potentiorum [illegible] aliud organum ponitur in anteriori parte cerebri et illud organum recipit intentiones a sensibus [illegible] potentiorum [illegible] organum mittit spiritus vitales ad sensus potentiores ut ibi [illegible] [illegible] organum ponitur in [illegible] parte capitis et [illegible] organum in [illegible] et [illegible] recipit intentiones a sensibus [illegible] potentiorum [illegible] sensus communis [illegible] iudicat de [illegible] sensum generalem. Ulterius nota quod [illegible] via quae vadit a sensu generali [illegible] corde ad anteriorem partem capitis et [illegible] via [illegible] a corde ad posteriorem partem capitis [illegible] quando [illegible] claudit [illegible] tunc sit [illegible] quando via [illegible] anteriori parte capitis [illegible] quia tunc [illegible] fantastica [illegible] quando obstruitur [illegible] tunc sensus potentiores non possunt sentire [illegible] quod sensus communis potentior solum iudicat vel [illegible] spiritus vitales [illegible] vias a sensu generali ad sensus potentiores [illegible] quando [illegible] impediuntur tunc sensus potentiores non possunt sentire. [illegible] sensibus [illegible] sunt [illegible] una [illegible] galienum [illegible] quod [illegible] organum sensus communis sit in cerebro [illegible] quia galienus [illegible] vidisse multos [illegible] corde [illegible] cerebro [illegible] sensus communis [illegible] quod organum sensus communis est in cerebro [illegible]

generis organum et augmentum quia si cor sit organum sensus generis tunc cor per continuam speculacionem deberet debilitari quod non fit. Item caput patitur in sompno cor autem non patitur in sompno ergo cor non est organum sensus generis. Ergo quia in sompno patitur sicut caput patitur et cor non, ergo ubi est organum sensus generis. Item dicitur in corde sunt venae grossiores venarum quam in alio membro eo quod a corde procedunt omnes venae ad alia membra et iste venae cerebri autem subtiliores sunt quam in omnibus, et quia propter calorem cordis quod subtiliat venas, et ergo quod sunt subtiles venae cerebri quam cor, et ergo ad caliditatem [illegible] non primo propter grossas venarum sed ita cerebro tunc venae sunt grossiores, eo quod non sit tantus calor ibi sicut circa cor, et quia propter frigiditatem cerebri, et ergo quia caliditatem propter cerebro grossas venarum. Item de animalibus quorum organum est dubium quod quantum ad cor est quantum et similibus quod sunt circa cor quantum frigiditatem cerebrum quod sequitur cor calefaciat illos spiritus delatos cerebro frigefacit eo quod cor et cerebro locantur dyametrum opposito, et ergo in corde est a contrario frigida quam in aliis membris. Item dicitur ista [illegible] non [illegible] aliis sensus generis recipit immutationem caliditatis, caliditatem cordis ergo cor non est organum sensus generis quantum ad [illegible] et generis [illegible] sensus generis consistit in medio [illegible] ad [illegible] quod [illegible] [illegible] et non [illegible]. Item dicitur [illegible] quodam alii inquit sensus generis in corde recipitur vel aliquid [illegible] cordi et licet sanguinis [illegible] non est cor [illegible] aliquid [illegible] cordi quod prima [illegible]. Item dicitur philosophus dicit post [illegible] ut adducta est. Et ergo quia [illegible] post [illegible] et [illegible] cerebro in capite, et ergo [illegible] nulla sunt alia capita non quaedam [illegible] etiam quod organum sensus generis non [illegible] in cerebro. Et ad [illegible] dicitur [illegible] ipsa animalia saltant, et quod non sunt [illegible] generis sed [illegible] spiritus vitales [illegible] quod [illegible] ibi et non potuit ita cito desinere. Item dicitur [illegible] quod per continuam et discretam [illegible] speculacionem caput debilitatur, ergo non sit quod sit organum sensus generis potius in cerebro quia debilitatio capitis provenit [illegible] ita quod aliquid impetrat caput et [illegible] [illegible] caput, ergo adhuc sensus generis potius in corde quia [illegible] debilitacionem sensus generis [illegible]. Item dicitur in sompno tunc caput [illegible] salvabitur [illegible] sed cor patitur salvabitur [illegible] et in ista passio in corde non est ita manifesta sicut passio in capite, ergo cor [illegible] patitur.

Circa capitulum ultimum [illegible] [illegible] sunt [illegible] alie [illegible] iudicatur. Item [illegible] non [illegible] [illegible] [illegible] in [illegible] quod ponit duas [illegible] iudicatur [illegible] et alias [illegible] et ista [illegible] opus [illegible] et aliorum quod opus [illegible]

Sunt ex parte posteriori ubi per solum determinat de duabus potentiis interioribus scilicet de sensu communi et de fantasia [illegible] illi de ista opinione ponunt sensum communem [illegible] fantasiam aut in cerebro [illegible] quod ponunt [illegible] virtutes interiores [illegible] sensum communem fantasiam estimativam [illegible] in brutis vel cogitativam [illegible] ponunt memorativam [illegible]

[illegible]

cognoscit eo quod cognoscibus sensatis erat intentiones insensatas / et ista potentia
ponitur in secunda parte medie partis cerebri. Quinta virtus dicitur fantasia / et ab aliquibus
vocatur formativa ab aliquibus ymaginativa ab aliquibus cogitativa. Ista potentia
est componere et dividere sensibilia cum sensibus intentiones cum intentionibus non solum in sompno
sed etiam quod sompnum post vigilando / et per illam virtutem ymaginantur monstra
prout chimera et aurea [illegible] / et hec virtus componit et etiam virtus in quibusdam ingeniis
a bone et diversificata in suis operationibus et in quibusdam bona est et in quibusdam quod
aliqui quorum [illegible] componunt res et sunt artifices quales alii / aliorum subtilitate
faciunt meliores calceos quam alii ut in sentencia. Sed in diversis ista virtus
vocatur a malis aspectu / et quia iste iudicantur in malo in illa quod sunt cursus spiritus
et spiritus / et ideo opera in illam virtutem sunt plus plures vi vidimus quod una
similitudo alia facit iudicia / post deinde et una aranea facit istam telam
post deinde et ista potentia ponitur in sinistra parte medie cellule et ista potentia
differt ab ymaginativa potentia quia ymaginativa ymaginatur sensibilia recipit et tenet et ab ista /
fantasia autem fantasiat causa sensibilia in comparatione unius ad alterum. Et ista
potentia differt a potentia estimativa / quia fantasia componit et dividit sensibilia recepta ab extra partibus
sed non in comparatione ad proximum. Sed estimativa componit et dividit intentiones recepta
in comparatione ad proximum / sed etiam dicendo fantasia accipit quandoque intentiones non
in comparatione ad hoc quod sunt appetibiles et detestabiles. Sed estimativa accipit illas
intentiones sub appetibilitate et detestabilitate. Septima virtus dicitur memorativa et est virtus conservativa sensibilium
non solum simplicium apprehensorum [illegible] sed etiam ab estimativa et fantasia / et ista potentia
est sicut ad estimativam sicut ymaginativa ad sensum communem / quia sicut ymaginativa conser-
vat sensibilia sensus communis sic etiam memorativa reservat intentiones estimative / et sic
potentia ymaginativa et memorativa conveniunt in hoc quod ambe sunt reservative specierum vel
intentionum differunt autem ab aliis quia alie sunt solum cognoscitive / et iste
non dicuntur retentive vel reservative quod illorum cognoscunt. Sed ideo quia
per illas species reservatas non faciunt aliquod iudicium / et ista potentia ponitur in
posteriori parte. Ergo lesa in capite male memoratur et lesa in sinistra parte
medie partis male fantasiantur et lesa in sinistra parte anterioris partis male
ymaginantur. Ulterius notandum differentias inter ymaginativam et memorativam / quia ymagina-
tiva conservat species presentes sed memoria est reservatio intentionum sub
determinata differentia temporis et non dicitur intelligendo quod memoria est potentia quo
ad hoc est solum potentia quo ad apprehensionem. Ulterius notandum differentiam quam potentia
potentia est in postrema parte capitis / et differunt tamen [illegible] est ingenium
reservatio memorie corporum [illegible] cursus. Sed tamen [illegible] diffinitur est
ingenium inveniendi illud quod oblitum est. Memoria et reminiscentia
differunt multum. Primo memoria est conservatio rerum cognitarum. Sed reminiscentia
conservatio rerum inventarum / quod sunt per oblivionem aliquorum. Secundo differunt
Reminiscentia solum est hominibus [illegible]. Sed memoria non solum in
hominibus sed etiam brutis. Tertia differentia quia reminiscentia est in discursu de aliquibus
oblitorum. Sed memoria est inquisitio alicuius post oblivionem

ab eo cum sit quid, et quod dicitur intellectus quod res concepta per conceptus universales
sit quod quid, et non est aliud ab eo, cum sit quidditas. Potest secundo intelligi, vel
quod dicit conceptus per conceptus [illegible] universalibus dicitur quidditas, et illud
quod remanet vel dicitur quidditas, et est idem cum illo cum sit quidditas. ¶ Contra
arguo sequitur quod res et quidditas rei differunt. Probatur quod differunt actu et non
[illegible] secundum considerationem intellectus, sic quod res quae concipitur sub singularitate et singularibus
materialibus tunc dicitur individuum vel suppositum vel res. Sed quod concipitur per conceptus
universalibus et indifferentibus tunc dicitur quidditas rei, et solo differunt actu. Sed quod
est [illegible] aliud est magnitudo et magnum. Sed maior: aliud dicitur compositum [illegible]
probatur quod aliud non est quod corpus ponderat compositum [illegible], sed actu, et
[illegible] sic in multis aliis, et dicitur [illegible] aliud sic quantum magnitudo
aliud dicitur compositum actualiter. ¶ Contra secundo probatur quod non sequitur, quantum sit [illegible]
potest intellectus intelligere, quia aliquid intellectus intelligit res sub conceptu
[illegible] vel sub conceptu speciali, praeterea intellectus intelligit [illegible] non ut
[illegible] sed ut quod, tunc non est ita praeterea intellectus intelligit [illegible] composito non
[illegible] quod eius intellectio sit facta. Sed intellectio est facta quia intellectus intelligit
sic quod [illegible] non est composita, [illegible] intellectus sic intelligit [illegible]
non est simpliciter composita [illegible], quia aliter [illegible] cum quo [illegible]. ¶ Contra tertio
quod in omnibus rebus materialibus res et quidditas rei differunt, eo quod in omnibus rebus
materialibus intellectus considerat aliqua quae non [illegible] ad formam
[illegible] quae [illegible] convenit [illegible] in rebus materialibus [illegible]
[illegible] aliud [illegible] in rebus materialibus [illegible] magnitudo et magnitudo
[illegible] quod ad [illegible] non [illegible] in omnibus, probatur quod [illegible] non [illegible]
ad res materiales [illegible] in materialibus sic quod non [illegible]
in materialibus [illegible] res et quidditas rei. ¶ Contra quarto probatur quod res et quidditas rei differunt,
eo quod cognoscuntur a diversis potentiis, quia quidditas rei [illegible] vel quidditas ab [illegible]
cognoscitur a potentia intellectiva, sed res a potentia sensitiva, et [illegible] res [illegible]
noscitur a potentia intellectiva. Sed [illegible] aliud quod res [illegible] quidditas rei cognoscitur
a potentia intellectiva directe [illegible], eo quod quidditas rei [illegible] et [illegible]
[illegible] intellectus, sed res autem cognoscitur a potentia intellectiva indirecte
et per reflexionem ad [illegible]. Probatur quod res et quidditas rei cognoscuntur [illegible]
ab eodem intellectu [illegible] [illegible], non autem [illegible]
[illegible], quia intellectus intelligit rem indirecte et per reflexionem ad [illegible]
quidditatem rei directe [illegible] intellectus [illegible] [illegible]

de spe(cie) et anima quia cum aliqui vivit corpus est possibilitas ibi et ante dicitur potentia
ne et non potentia ens quod. Decimo iustitia finitur ut acceptat et non accidit sunt
et semel in augmentum inperfectio totius rationis quia prima dicitur depositum na-
turis quod sunt omnis et est perfectio per ductum et iustitia non inperfecti finitur natura
simpliciter abstracto omni modo. Decimo sexto duobus dicitur quod iustitia quando
quidem potentia innata ad compositum, prima finis quia iustitia nata iustitia ad
unum. dicitur iustitia est innata una via procedendi compositionibus ad contrariis
quod eis potentia innata non est aliquid sed additum iustitie ut est eius
via innata. Quod ista duo sunt ipse inuict iustitia et sunt potentia et innata
et ergo est actiua dicitur quod omnis quilibet est actiua quia in ipso modo est quiddam

Utrum iste actiua iustitie uirtus sit ponere iustitiam agentem esse quod natura
differentia est inter iustitiam iustitie et iustitiam quia iustitia est

agens efficit iustitiam et sic dicitur quod iustitia agens quod sic iam

iam tamen iustitia agens non generat effectum. Ideo est quod in malis
quod et effectus non accidit sed in malis et effectus accidit. Sed quod iustitia est in malis et potest effectus esse

dat aliquid quod est forma iustitia et quod sic
forma iustitie esse iustitie

ut dixit, ideo quod sicut sol illuminat universum mundum ad augmentum illuminationis
oculus videt. Sic etiam dicit quod una forma separata quae irradiat
super fantasmata formarum ad earum irradiationem intellectus possibilis possit aliquid
intelligere, sicut quod oculus formas intelligit virtute istius irradiationis. [illegible]
ista opinio est falsa et erronea, sicut quod dictum est supra aliquid [illegible] ubi dictum

intellectus passibilis. intellectus possibilis est [illegible] intellectus agentis. alio dicitur quod eundem intellectum possibilem
primus duobus modis tunc implicat contradictionem eundem intellectum esse possibilem et agentem eodem
modo intellectum possibilem et agentem. tunc non implicat. Dicitur intellectus 3 dupliciter
scilicet intellectus completi et incompleti. intellectus completus est duplex quod est
passivus et activus. passivus est ipse recipere formas intellectas. activus est
mediis illis speciebus formare intellectionem. intellectus completus est ipse recipere
intellectionem et per intellectum et mediis illis formare intellectionem. alio dicitur
quod intellectus est agens sic quod intellectus est ipse recipere formas intellectas [illegible]
intellectus non est agens [illegible] quod sic quod magis agere quam [illegible] recipit in se formas
[illegible] dicitur quod intellectus completus passivus est ipse recipere et ipse formare formas
intellectas. non autem intellectus activus vel intellectus activus completus. Dicitur
quod utrum intellectus agere [illegible] quod videamus [illegible] quorum dicit quod et
ondit [illegible] quod sentire est agere intellectus est agere [illegible] quod color
[illegible] multiplicat species in medio [illegible] effectus multo nobilior quam sit ille species in medio et ideo ad formandum
species [illegible] requiritur agens nobilius quam sit ille species. et quod non [illegible]

Dubitatur quo modo differunt intellectus agens et possibilis [illegible]
utrum intellectus agens et possibilis magis differunt quam intellectus practicus et
speculativus. [illegible] intellectus speculativus est [illegible] notitie speculative
et finis eius est [illegible] vel quia [illegible] vel [illegible] et ideo [illegible]
[illegible] speculativa eo quod eius finis est [illegible] vel [illegible] practicus est quod
est productivus notitie practice [illegible] et finis eius est opus vel quod
[illegible] vel [illegible] alio dicitur ad [illegible] quod [illegible]
practicus et speculativus magis differunt quam intellectus agens et possibilis et quod [illegible]
[illegible] quod intellectus agens et possibilis [illegible] operationem [illegible]
quod dicitur agens [illegible] formare [illegible] intellectum et dicitur possibilis [illegible] recipit
[illegible] intellectionem. sed intellectus speculativus et practicus non [illegible] quod
[illegible] intellectus speculativus est speculari. sed practicus est operari non [illegible]
et ideo intellectus practicus et speculativus distinguuntur

sunt due virtutes quarum una est ad prosequendum conveniens et fugiendum

per quam ascendit sursum tanquam ad locum sibi convenientem et fugit a loco
deorsum tanquam sibi disconveniente. Et est in igne alia caliditas per quam impugnat

motus localis, quia primo huius una questio stat quod [illegible]. Contra autem ista, quia quamvis quelibet data ista non requiratur ad motum localem, quia quelibet sine ista ista non requiritur ad motum localem concurrit. Hic est intellectus non requiritur ad motum localem in generatis. Secundo intellectus non dicitur causa [illegible] intellectus sed solum per intellectum practicum, et per intellectum practicum dicitur intellectus speculativus cognoscit [illegible] practicum, et [illegible] qui [illegible] speculativum [illegible] intellectus speculativus, et intellectus practicus [illegible] post quod cognoscit, quia [illegible] sicut [illegible], et intellectus motum localem non sufficit quod generat appetitum, et intellectus [illegible] requiritur quod generat appetitum et intellectum practicum [illegible]. Secundo appetitus [illegible] motus localis progressivi, quia motus non progressivus appetitus [illegible] naturalis [illegible] in motu lapidis. Tertio [illegible] sufficit motus [illegible] corporalis [illegible], quod intellectus [illegible] motus [illegible] appetitus et intellectus [illegible] sufficientes naturales motus [illegible] ad organa corporalis, quia ista duo non sufficiunt, sed requiruntur media et organa corporalis ad motum et [illegible] vires. Ad secundum dicitur quod appetitus requisita ad motum [illegible] intellectus [illegible] non fuit impeditus [illegible] sufficientes motus, non quod [illegible] non potest agere [illegible] sufficientes [illegible] vel [illegible] aliquid [illegible] quia [illegible] tamen aliquid [illegible] [illegible] ponit. Tertio dicitur quod appetitus et intellectus sunt [illegible] motus naturalis [illegible] velocior, quia in [illegible] motus naturalis. Sed quod motus naturalis [illegible] vel [illegible] quod motus [illegible] uniformiter [illegible] tardior, quia [illegible] dicitur quod [illegible] sit [illegible] uniforme [illegible] lapidem cadentem [illegible] et aquam sit [illegible] et [illegible] [illegible] quod in ac [illegible] et [illegible] aliquid non [illegible] appetitum. Sed [illegible] Quarto dicitur quod aliquid non [illegible] motu [illegible] in [illegible] appetitus [illegible] [illegible] vel [illegible] quod appetitus [illegible] a motu [illegible]. Sed [illegible] qui movetur de [illegible] ad movendum [illegible] appetitus et intellectus non [illegible] quod [illegible] appetitum [illegible] dormientibus [illegible] dormientes vigilando [illegible] [illegible] motu locali [illegible] qui [illegible] movet [illegible] et vitales ad [illegible] appetitus [illegible] movet [illegible] intellectus [illegible] motus [illegible] [illegible] et [illegible]

Utrum [illegible] aliquis motus localis [illegible] quia [illegible] motus [illegible] motum elementi [illegible] aliquid non [illegible] non impeditum non [illegible] aliquid non [illegible] impeditum [illegible]

alterative sicut cum calescit cum frigescit. Quarto motu respiracionis et inspiracionis
et quo ad equandum et mitigandum nimios calores cordis. Aliquis motu
augmentationis et diminutionis. Et de istis motibus hic non queritur sed solum de motu
locali vel progressivo (non quo ad omnes) quo ad omnes alios habet potentiam motivam
localis ut quod avis movetur volando quia [illegible]
Utrum non omne animal habet motum localem. Arguitur non animal habet potentiam motivam
localis specialem nec intrinsecam et per consequens non movetur. Arguitur [illegible] non habet
potentiam et eorum specialem et intrinsecam. Utrum animal totale non habet potentiam
motivam specialem. Arguitur [illegible] et aliis affixis petris que non habent
potentiam motivam localem specialem. Arguitur quod tota alia patet in motu localis ut
quia et quod in corpore. Item animal totale non habet potentiam motivam localis
intrinsecam. Arguitur quod non movetur per intrinsecam. Arguitur quod non per intrinsecam
nec per specialem. Quia specialem quia ipsius opus non habet opus [illegible] sed
motum habet per [illegible] quia [illegible] quia maior quam sicut per [illegible]. Aliquis
homo cognoscat aliquid et tamen non movetur ad illud. Arguitur ut [illegible] cognoscit
quod est bonum prosequendum et tamen non facit sed facit malum. Contra est de [illegible]
aliis [illegible] habet potentiam motivam specialem sed aliis [illegible] habet potentiam
specialem et etiam intrinsecam pro quo [illegible] alicui non movetur et tamen potentiam
intrinsecam sicut [illegible] aliquis et tamen potentiam specialem sicut [illegible]
de [illegible] de [illegible] quod [illegible] aliis habet potentiam motivam specialem.
Sed quod tamen tota alia patet in motu localis [illegible] quod [illegible] quod patet in motu localis

intellectus cogitativa seu aliud impossibile non possunt iuvare ut probat hoc. Sed per ipsum alienum vel quoddam dimensum ipsum dimensare hoc. Decimo dicitur quod ipsum intellectus abstrahit a fantasmatibus non per id quod intellectus, sed id quod intellectus dicitur quodammodo dispositus intellectus ad intelligendum. Et quia ipsum intellectus intellectui quod intellectus per quandam reflexionem qua intellectus supra se ipsum reflectitur et cum reflexione et cum intellectus et habitus, quia intelligit et intelligitur ipsum intelligibile per id quod intellectus, sed non per ipsum id quod per intellectus per ipsam rem aut ipsum intelligibile per speciem. Decimo quarto quia intellectus actu per intellectum et actum quia hoc per suum intelligere speciem vel intellectus per formam intellectus in actu, nam intellectus per intellectum possibilem speciem vel non ipsum intelligibile abstrahit a fantasmatibus sed id quod actu intellectus quod eius speciem. Decimo quinto quia intellectus in actu per aliquid, sed intellectus in actu duo importat scilicet rem et intellectus et quod intellectus sed intelligibile seu obiectum quantum ad primum intellectus in actu per rem quod intellectus quantum ad secundum intellectus. Sed dubium quomodo intellectus agens abstrahit a fantasmatibus, dicitur quod per quendam modum ipsum intelligibile ad speciem per intellectum a fantasmatibus postmodum fiat intellectus per quandam unius corporis ab uno loco et transfert ad alium locum. Sed sicut ex virtute intellectus agentis resultat quod speciem intellectus per conversionem intellectus agentis super fantasmata quod reputatur ex quorum speciem fantasmatis ad usum. Ergo quod apparet [illegible] intellectus fantasmata et speciem intellectus et reputat rem intelligibilem ad genera individua. Sed ipsum intelligibile per intellectum et reputat [illegible] per genera individuorum. Et secundum quod scientia per intellectum ipsum intelligibile est intellectus et [illegible] magis debeat reputari rem quod scientia res.

Utrum appetitus qui dicitur appetitus sensitivus et intellectivus sit potentia distincta. Ratio quia appetitus superior movet inferiorem, appetitus intellectivus movet sensitivum. Et hoc quia appetitus se habet ad apprehensionem, non alterius, quia apprehensio intellectiva et apprehensio sensitiva, ergo appetitus intellectivus et alia potentia. In quo quod appetitus sensitivus qui nominatur sensualitas quod non sunt assimilari motui [illegible] quod secundum modo appetitus sensitivus sequitur sensualitatem et sensualitas per quod potentia dicitur aliqua ab una ad aliquid appetendum vel fugiendum. Sed appetitus intellectivus dicitur non voluntas et appetitus intellectivus quod [illegible] intellectivus. Decimo appetitus non sunt dicitur appetitus sensitivus et intellectivus quod sensualitas et appetitus in appetitu et dicitur appetitus sensitivus et intellectivus et appetitus sensualitatis. Sensus appetitus sensitivus dicitur appetitus sensitivus et intellectus in appetitu intellectivo dicitur sensitivus et intellectus. Item dicitur appetitus quod est sensitivus et intellectus quod sensualitas dicitur appetitus per appetitum dicitur. Et hoc per appetitus aliquam quod sit eodem modo sive aliquam quod sit eodem genere dicitur. Sed quod appetitus ipsum appetitus dicitur quod [illegible] dicitur non dicitur.

Utrum liberum arbitrium sit potentia penitus absoluta. Probatur per rationes [illegible]. Quod liberum arbitrium est potentia, patet quia liberum arbitrium est in anima et non ut actus nec ut habitus, ergo ut potentia. Consequentia per sufficientem divisionem, quia tria sunt in anima [illegible] 2o Ethicorum, scilicet actus, habitus et potentia. Quod non sit actus patet, quia si esset actus tunc non semper esset in homine, eo quod actus non semper est in homine. Nec est habitus, quia habitus acquiritur ex actibus frequentatis et frequentibus, sed liberum arbitrium non acquiritur in homine ex actibus frequentatis, eo quod est innatum homini. Secundo quia habitus dicuntur quibus nos habemus nos ad actus bene vel male, ut dicitur 2o Ethicorum, nam per temperantiam nos habemus bene et per intemperantiam nos habemus male. Liberum autem arbitrium se habet indifferenter ad bene vel male eligendum. Relinquitur ergo quod liberum arbitrium aliud non sit quam [illegible], nec actus nec passio, ergo potentia. Tertio ergo liberum arbitrium non proprie potentia penitus absoluta, quia dicit Damascenus quod liberum arbitrium nihil aliud est quam voluntas. [illegible] quod non quamvis liberum arbitrium sit voluntas, tamen aliquo modo differunt quo ad actum, quia actus voluntatis est simpliciter velle, sed actus liberi arbitrii est eligere. Secundo differunt quo ad obiecta, quia voluntas est ipsius finis, sed liberum arbitrium est eorum que sunt ad finem. Sed sicut eadem potentia est intellectus et ratio, sic eadem potentia [illegible] velle et eligere. Contra [illegible] liberum arbitrium non est potentia [illegible], quia liberum arbitrium est actus, ergo non est potentia. Antecedens: liberum arbitrium dicitur quasi liberum iudicium, modo iudicium est actus [illegible]. Item liberum arbitrium est habitus et non est potentia. Antecedens: liberum arbitrium est facultas rationis vel voluntatis. Antecedens, quia facultas dicitur facilitas, modo facilitas dicit habitum. Item id quod suscipit magis et minus aliud non est potentia, sed liberum arbitrium suscipit magis et minus [illegible]. Item liberum arbitrium non est potentia [illegible] tollitur per vitium vel peccatum, sed liberum arbitrium tollitur per vitium et peccatum [illegible] non tollit [illegible] et est subiectum vitiorum. Item liberum arbitrium non est una potentia [illegible] quia sunt plures potentiae, quia est voluntas et ratio [illegible] liberum arbitrium dicitur quasi liberum iudicium [illegible] liberum pertinet ad voluntatem, sed iudicium pertinet ad rationem, et erunt duae potentiae. Item [illegible] liberum arbitrium non [illegible] actum, ergo non est una potentia [illegible] multas actus [illegible]. Item [illegible] voluntas non eligit [illegible] eligere [illegible] liberum arbitrium [illegible].
